

06.03.2022

Dear Parents,

This is the last letter of the school year as we are closed next Friday please let us know when your Childs last day will be so we can give you their things! The children have grown so much throughout the year and its so amazing to see the skills and intelligence these children have as they continue to grow its a blessing to be apart of, a big thank you to all the parents of red door for the kindness of gifts and treats its so very appreciated by us, thank you!

The topic of animals is always fun the children roar super loud like a dinosaur, gallop like a horse, this weeks topic is sea animals we had fun reading "little dolphin little shark, baby fish, the pout pout fish, little crab little sea turtle and singing and moving our bodies to " good morning, slippery fish, I'm a starfish, underneath the ocean, baby shark". For art/small group the children used blue crayon to color white paper for the ocean the teachers cut out fishes and the children glued it to their paper, we divided the class to play with blocks and pegs for fine motor and eye coordination sticking the pegs in the holes, the children then used different colored crayons to color white paper. Playground we run with our teachers and friends play with bubbles, ride the tricycles and train.

Have an amazing weekend!! 

Mrs. Miriam & Ms. Gabriella
