This Week in Gold Door...😊

Dear Parents during this week we covered skills such as organizing sentences to make sense of a story, capitalization and punctuation. We also covered common nouns, proper nouns and possessive nouns. We also practiced isolating beginning and ending sounds of a word and digraphs -th, -sh, and -ng.

The Math objective for this week was to identify and write opposite addition and subtraction facts. We will continue to work on Chapter 5 next week.

The students were able to define what matter is and to give examples of it, they also learned about motion and speed and about gravity. For Social Studies we introduce the concept of maps and we will continue to work with this concept next week.

😊 In addition to our weekly music class with Miss Clarice, we started with a new and fun activity on Wednesdays, the children danced and move while Turtle Dance led them in a multimedia exercise class. This is a new option for celebrating birthdays in school. For other in school birthday celebrations click this link:

During this week we visited our garden again to water and tend for our tomato plants 🍅. They are growing faster than expected.

COMING UP...

We will be CLOSED on Friday, November the 11th to observe Veterans' Day.

Have a lovely weekend!

Love,

Mrs. Audrey 🌸
