

08.02.2024

Hello Parents,

Summer has flown by! We can't believe how fast it went. It must have been all the fun we had. Remember that next week is a short camp week. We will be closed on Friday for our Back to School event.

This summer, we learned different science topics while doing some hands-on activities, from learning about gravitational force to building our own planes and cars. We have been very busy these weeks. We also had time to do some beautiful art projects. We used paint, salt art, clay, and more. We used our imaginations and our creativity. We also had some fun field trips and water days to add to the summer fun. We hope we get to do all of this again next summer!

During our enrichment time, the students practiced skills needed in math and language arts. We will continue to work with the children so they don't forget what has been learned.

Quiet moments are also needed, and they're fun. The students do 30 minutes of D.E.A.R. Time, dropping everything and reading!

The students love their free art time, playing board games, dancing, and yoga movements.

Thank you for a fun summer! We wish all the students the best of luck for a happy and healthy new school year!

With love,  
Ms. Adriana (K/1)  
Mrs. Audrey (2+)
