

06.23.2023

This week the children learned that Australia is one of the largest countries that covers an entire continent. Although it is rich in natural resources and has a lot of fertile land, more than one-third of Australia is a desert. They also learned about famous Australian animals such as Koalas and Kangaroos.

Circle Time: The children saw pictures, and videos about Koalas, and Kangaroos. We talked about Koalas which are found in the eucalyptus forest of eastern Australia. They have grey fur with a cream-colored chest, and strong clawed feet, perfect for living in the branches of trees! Kangaroos have big feet, and they use their tails to balance while jumping.

Art Center: The children used gray paint and paper plates to make Koalas. They also pasted colorful small squares around the Kangaroo to improve their fine motor skills.

Have a great weekend.

Mrs. Carolina, and Ms. Zlota
