Hello Orange Door Parents!

The students had an incredible week! Their week started with our field trip next door to the clubhouse where we had the amazing opportunity to sing and dance with Ms. Patty who is a YouTube sensation in the world of education. Ms. Patty writes and performs children's music for YouTube. She also has her own website where all her music can be found called Patty's Primary Songs. Ms. Patty teaches children everything from the sounds of the letters to mathematics, and social-emotional skills for young children. We were very fortunate to have her come here to Kids for Kids Academy.

#### Circle Time

Time we learned about Winter. The students learned about igloos how they are used as shelter, and how they stay warm inside. We also continued to work on learning our letters and numbers. Our students have learned a tremendous amount of academic and social learning skills this year, so we are now teaching them numbers up to 30. Previously we were teaching up to the number 20, however the students have done amazing so we are going all the way to 30! We are extremely proud of every single one of our students!

Art- This week was Winter Wonderland Part 2. The students made snowman snow globes, using paper plates, paint, q-tips, crayons, glitter, and scissors. They made igloos using construction paper, markers, glue, and little paper squares. They traced the letter R and glued mosaic squares on it, and on Friday they had a chance to work in their journals.

Music and Movement- We had lots of music and movement this week, as stated before we danced and sang with Ms. Patty on Tuesday. We also had our weekly soccer class which the students love! The students worked on their mind and physical health by jogging around the field, controlling the ball as they walked down the field, and playing their favorite soccer games!

Next week we will be learning all about the weather. We will create artwork all related to the weather, and the students will have a chance to record how the weather is outside each day.

We hope you have a wonderful weekend, and we will see you next week.

Mrs. Miriam, and Mrs. Melanie
