

05/21/2021

Dear Parents of Gold Door,

This week we introduced the first two H sounds. SH and TH. To further explain this the student practiced blending words that have the two sounds in the front and back of words such as ship, fish, them and bath. The students made their own ship to practice the SH sounds and made crowns with TH or SH to show different ways to make words. For writing the students used any of the sight words of the week to create their own sentences.

For science, the students read scholastic magazines to review different things such as seeds, our shadow, habitat of a duck, and other animals.

For math, the students took their end of the year test

Just a few reminders; Monday 5/31/21 the school will be closed.

June 9th between 2 pm-4 pm will be our end of the year drive by celebration so please be on the lookout for updates and more information regarding this event.

Thank you for the delicious food! We appreciate the time and effort spent on the delicious food brought to us.

Remember to use the Brightwheel app when checking your child in and out.

As always, have a wonderful weekend,

Ms. Adriana & Ms. Jocelyn
