

2/18/2022

Dear Parents,

This was a wonderful and lovely week! On Monday, we celebrated the day of Love, and Friendship. The children were happy and there were many smiles as they enjoyed their bags full of cards and gifts.

During Circle Time, we sang songs about love, family and friends: "I love you, you love me", "If you love me and you know it", "will you be my Valentine" and much more.

This week our theme was about the colors pink, purple and red. For Art, the children made the color pink, mixing white and red paint. They colored construction paper using purple, pink, and red crayons. They also painted their hands and made handprints on paper. Finally, we worked on fine motor development using Play-Doh.

Music Time - as you could see on a video is always well anticipated by the children. Ms. Clarice always brings an instrument they can play with; this week they could play with a Lollipop shaped drum, taking turns.

We have observed that as the children grow, they get more involved with each other: they like to dance together holding hands. They also start, little by little to learn to take turns and share the toys with their friends.

Finally, we were happy to welcome our new friend Matias!

Have a great weekend.

Mrs. Mireya & Mrs. Miriam
