

08/06/2021

Dear Parents Of Yellow Door,

This week we traveled to Ireland.

During "Art Time" we worked with lots of sensory activities. The children got to use orange and green Play-Doh. They painted with a sponge using different colors. They also walked on paper to make green footprints, we had such a blast! We used the sensory bags that we're made for them with green and orange paint and some with water and soap, the children really enjoyed this activity.

"Let's go outside." is a sentence they well understand as they rush to the door. Playground time is an activity they don't like to miss. They like to swing, slide, ride cars, play in the little house, fill leaves in a bucket and dump them out and of course popping bubbles! They also love to dance while listening to music. There is so much to do...

Have a great and safe weekend with your family!

Love,

Ms. Yanet and Ms. Samantha
