

05.10.2024

Dear Parents,

During this week, we finished with our math curriculum, we reviewed digraphs such as ch, sh, and ph, as well as rhyming words, and homophones for language arts. We are done with Chapter 10 of science, and we have more content to cover.

For the next few weeks, we will continue to review skills learned and we will spend most of the time doing Science.

Even though we are done with some subject areas, teaching is still going on. The children are still required to be in school on time and they need to wear their uniforms.

COMING UP...

We will have a "toy wash" next Friday, please read the information sent on Wednesday night and let me know if you have any questions.

Have a lovely weekend!

Ms. Audrey
