

04.26.2024

Dear Parents of Rainbow Door,

The topic of this week was Outer Space Part 2. This week, we discussed the sun's importance and how it benefits us. We also celebrated Earth Day, we talked about the importance of keeping it clean so we can breathe purer air, and have healthier animals and a healthier environment in which we live. We taught the children about the planets and their names through short videos, books, and music.

The children were very excited to do their Art Project, they made the planet Earth, using blue and green colors on paper plates.

They made their own Solar System in free art. They also cut out and glued a telescope looking into space. Finally, they worked on their Journal.

We planned activities in the playground: the children played Hot Potato and Duck Goose in addition to forming two basketball teams and they had a lot of fun 🤪

Have a wonderful weekend!!

Mrs. Miriam and Mrs. Mireya.
