

07/09/2021

Hello Parents of Silver Door,

This week we traveled back home to the USA! Our students were excited to learn more about the country they live in. We started out by explaining the flag. The children learned that the flag has 50 white stars for our 50 states and 13 white stripes for the original 13 states. The flag stands for freedom, life, and liberty. The children also learned about an American symbol and our national bird, the bald eagle. They made their own bald eagle puppet. The children also made fireworks using Q-tips and made a windsock to hang at home. They listened to the songs "You're A Grand Ole Flag," and "America the Beautiful." They also heard the story "What It Takes To Be An American."

This week's STEM activity was Water Play. The children enjoyed testing items to see if they sink or float and learning with water.

Some stories we read this week were "No Bullies Allowed," "Jake's Secret," and "Lucky's Big Week."

The children really enjoy the educational games that they get to play daily on the tablets.

We hope you have a lovely weekend,

Ms. Adriana and Ms. Tayra
