### WHAT WE LEARNED IN FEBRUARY

Our class has been doing a great job expressing their feelings with one another.

We have been working on using our words to ask for things and to be included in playtime with others. We are taking turns and really growing our friendships together.

We have done a fantastic job learning our last names and Mom and Dad's name.

### WHAT'S AHEAD!

We are going to be working on learning addresses.

We will be explore the colors of the rainbow and how to make different colors when mixing colors together.

We will also continue to work on using scissors and glue.
