### LETTERS & NUMBERS FOR THE MONTH

We are doing great with learning the alphabet. They enjoy singing and making hand movements to our letter of the week. Ask them to sing the songs about the letters. We review them every day.

Nn-is for necklace. We made "Ninja Turtles" and worked with numbers one to five.

Ll-is for leaf. We made leaf prints and made a leaf man.

Pp-is for pumpkins. We created a pumpkin out of egg cartons and a five little pumpkin picture.

Ss-is for spider. We made spiders and learned about the different parts of a spider. We made a spider out of pinecones and a bouncing spider from an egg carton.

Ww-is for watch. We started working on animals that hibernate.

### WHAT WE LEARNED IN OCTOBER

We had a great time at the Nature Center exploring nature and learned about all the different types of bugs that live around us. We collected leaves, sticks and rocks during our walks and used all our findings to create neat art projects at school.

They enjoyed Tom's Field Trip, picking pumpkins and gourds and running around the farm. Thanks to everyone who came to the farm, it was fun!

We wrote two books this month. "Fun at the Nature Center" and "The Adventure's at Tom's Farm". Each month we will be writing a new book.

### WHAT'S AHEAD!

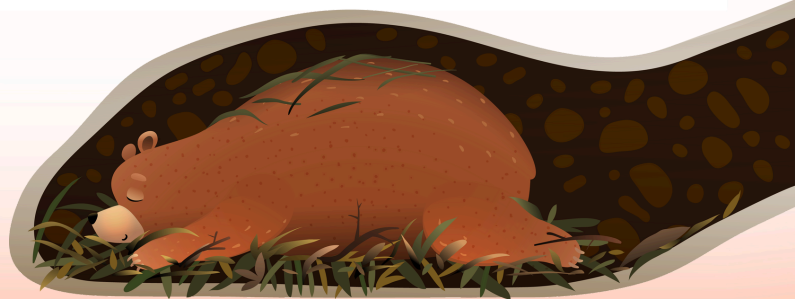

We will learn about how animals get ready for the winter, and which animals sleep and which animals stay awake during winter.

We will continue to work with numbers, counting and writing the numbers 1 to 20.

### DRAMATIC PLAY AREA

CAR CARE

We hope everyone enjoyed the pumpkin carving night and the spectacular costume parade!
