

# BARLINA HOUSE

## BULLETIN

Mrs. Donna & Mrs. Lane  
4 YR OLDS

### WHAT WE LEARNED IN JANUARY

We learned Hh, Cc, Yy and Ff. Each letter we sing a different song and make different movements. The children enjoy moving around and singing the songs. We made two different hats; one we weaved with paper and the other we created with yarn.

We had an exciting snowball fight inside school. We made everlasting snowballs. They had a wonderful time. We conducted two science experiments - we created a volcano and learned how an eruption happens and we made a snowstorm in a jar. We also wrote another book about what you do on a snowy day. They were very funny!

We created two types of fake snow. One was with conditioner and cornstarch and the other was with flour and baby oil. We also made fluffy slime with glitter. What a mess! They thoroughly enjoyed all the experiments.

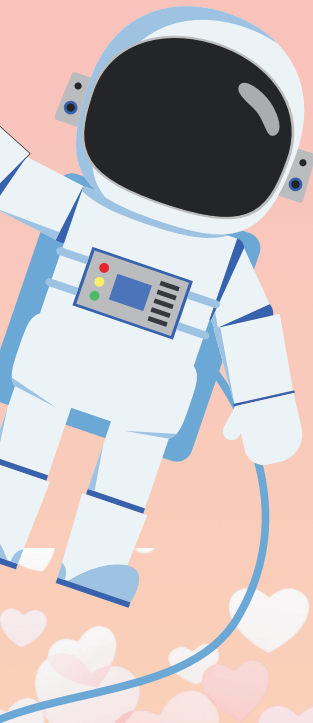

### WHAT'S AHEAD!

We will learn Vv, Xx, Qq and Zz. Wait and see the exciting projects that will come home.

We will be learning about space and all the planets in our universe. We will transform our room into a space center.

We will be sending home a classroom pet in February. The Monday-Wednesday-Friday class will have "Yellow Duck," and Tuesday-Thursday class will have "Pinky the Pig." The instructions about what to do with our pets are in the book that comes home with the pet. Enjoy!

### DRAMATIC PLAY AREA

BARLINA SPACE CENTER

We will be playing outside if the temperature is above 20 degrees, please send appropriate clothing.
