LETTERS & NUMBERS FOR THE MONTH

V, X, Q and Z. And numbers 9 and 10.

We made paper volcanoes first and then molded brown play dough into our classroom volcano and made it erupt with baking soda and vinegar and a bit of glitter. It was super cool to see it pour out over the dinosaurs we put around it.

We used eye droppers to put white paint on black paper and then squished it together. When we looked at it, it was like an x-ray.

We read "Not a Scribble" and the kids made their own masterpiece and put them together to make a classroom quilt. Then we had fun making the letter "Z" into a zebra.

We dance to the "The Floor is Lava" and did a "Valentine's Day Freeze Dance" by Danny Go. Our Valentine's Day party was a huge success. We made crafts, love bugs with playdoh, built with solo cups and made flannel board stories.

Next month the letters will be R, U, K and O. And we will begin our review of the numbers 1-10.

DRAMATIC PLAY AREA

FLOWER SHOP &
SCIENCE CENTER

WHAT WE LEARNED IN FEBRUARY

We explored the globe in our classroom. We have been exchanging Valentines with other preschoolers all over the USA and so far, we have received them from 15 states! We also played with our xylophone. Our easel is a favorite of the kids, and we tried painting with Q-Tips. A dental hygienist visited the school and we learned how to take care of our teeth.

The kids seem to be enjoying bringing in their favorite books when it's their turn. Keep a look out in their backpack for info. Everyone will get a turn. Not only do the kids love this but I have a list of new books that I would like to add to our library here at school.

We started picking a child for each class to be our line leader. They LOVE being picked and it gives them responsibility.

And we had so much fun at Grand Oaks. We had some much needed running around time with the obstacle course being a favorite by most.

WHAT'S AHEAD!

Next month we are having an Art show where families can come and see artwork displayed. We also will be working together on a trap to catch that silly leprechaun. This might be the year!

REMINDERS

Check the flyers that come home and that are one this email.

Have a great Spring Break! See you Mar 31!
