EVs are fun to drive and one of the best things you can do to mitigate Climate Change! Besides, they're becoming pretty normal now, not to mention, stylish, convenient, and less expensive than you think! We think **that's pretty Kick Gas!**

Whether you're an experienced EV driver, newcomer or thinking about making the switch to emission-free driving...**we're here to help!**

Which is why an environmental organization like Annapolis Green is advocating (and the only one do so) for **driving electric!**
