

To all CSUP students: **Spring 2024 registration is approaching!**

- Are you wishing for a creative outlet through music? For a way to have community and connection to other students?
- Do you have experience with traditional music-making in band, choir, orchestra, or other concert ensembles?

The Department of Music would like to welcome you as a participant in one or more of our many performing ensembles! You do not have to major or minor in Music, just have experience along with a desire to make music and perform with others.

Check out the list of ensembles below and reach out to the appropriate professor for more information!
