

CANDLE LIGHT VIGIL IN UNITY

Join us for an evening of **unity**, **reflection**, and **hope** at our Unity in Light: A Candlelight Vigil for Peace event. In these challenging times, as the world grapples with unrest and conflicts, we believe it's essential to come together as a community to promote peace, understanding, and solidarity. This event is open to all, including students, faculty, staff, and the local community, as we aim to create a safe and inclusive space for everyone. In a world marked by divisions, Unity in Light seeks to transcend boundaries and differences, allowing us to focus on our shared humanity. We will gather at dusk, lighting candles to symbolize our commitment to peace for a better world. The soft glow of each candle will serve as a beacon of hope in the face of global challenges.

We are honored to feature guests from diverse cultures, each sharing their unique perspectives and experiences, underlining the importance of global unity and solidarity. Together, they will inspire us with stories of resilience and shared dreams, reinforcing the belief that peace is a universal aspiration that transcends borders and cultures.

This event is not about taking sides or pointing fingers; it is about finding common ground and understanding the value of peace. We invite you to join us in this candlelight vigil to create a moment of collective reflection, a space to send our hopes for a more peaceful world out into the universe, and a reminder that *change begins with unity.*

Date: **November 13, 2023** Time: **5pm** Location: **CSU Pueblo Fountain Plaza**
