**Re: Community Meeting on Second Church of Christ, Scientist Building
2700 North Pine Grove Avenue**

Dear Neighbor:

I am writing to invite you to join my office and the Park West Community Association at a community meeting to discuss the future of the Second Church of Christ, Scientist building, located at 2700 N. Pine Grove Avenue (intersection of Pine Grove and Wrightwood Avenues).

The church owns the building; however, the condition of the Building and costs associated with maintaining it have escalated to the point where it is no longer financially feasible for the building to remain in operation.

Please note that at this time, there have been no redevelopment proposals presented to my office and that this meeting will not be regarding a potential redevelopment of this site.

Rather, the church has recently engaged a Consultant to facilitate the re-use of the property, and they would like to present the next steps in their process, as well as an overview of the immediate future of the property, to the community.

WHAT: Second Church of Christ, Scientist Building

WHO: Hosted by Alderman Michele Smith and the Park West Community Association

WHEN: Tuesday, November 14th at 6:30 pm

**WHERE: Second Church of Christ, Scientist
2700 North Pine Grove Avenue
(Intersection of Pine Grove and Wrightwood Avenues)**

I hope you can join my office and the Park West Community Association in attending this meeting.

In the meantime, if my office can be of assistance to you, please do not hesitate to contact us at (773) 348-9500 or visit my website at www.ward43.org.

Sincerely,

Michele Smith
Alderman, 43rd Ward
