R4-30-305. Drug Laboratory Site Remediation Best Standards and Practices Repealed

- A. Preliminary procedures:**
1. The onsite supervisor shall determine the nature and extent of damage and contamination of the residually contaminated portion of the real property.
 2. The onsite supervisor shall request a copy of any document from a law enforcement agency, state agency, or other reporting agency regarding the nature and extent of illegal drug activity, evidence of what materials were removed from the real property, the location from which they were removed, and the area posted by the notice of removal.
 3. The onsite supervisor shall:
 - a. Evaluate all information obtained regarding the nature and extent of damage and contamination;
 - b. Develop procedures to safely enter the residually contaminated portion of the real property in order to conduct a visual assessment;
 - c. Wear the appropriate personal protective equipment for all conditions assessed;
 - d. Visually inspect the residually contaminated portion of the real property; and
 - e. Be assisted by at least one onsite worker during the initial entry into the residually contaminated portion of the real property.
 4. The onsite supervisor shall conduct and document required testing for corrosive, flammable, combustible, and toxic atmospheres during the initial entry in the residually contaminated portion of the real property, such as using a LEL/O₂ meter, pH paper, PID, FID, or equivalent equipment.
 5. If the notice of removal posting is no longer present at the time of the initial entry by the drug laboratory site remediation firm, then the entire house, mobile home, recreational vehicle, detached garage or shed, hotel room, motel room or apartment unit shall be considered the residually contaminated portion of the real property.
 6. If there was a fire or explosion in the residually contaminated portion of the real property that appears to have compromised the integrity of the structure, the drug laboratory site remediation firm shall obtain a structural assessment of the residually contaminated portion of the real property.
 7. The owner may retain a drug laboratory site remediation firm to demolish, and dispose of the residually contaminated portion of the real property rather than perform the remediation described in subsection (B).
 8. The drug laboratory site remediation firm shall prepare a written work plan that contains:
 - a. Complete identifying information of the real property, and the drug laboratory site remediation firm including but not limited to:
 - i. Street address, mailing address, owner of record, legal description, county tax or parcel identification number, or vehicle identification number if a mobile home or recreational vehicle;
 - ii. Registration number of the drug laboratory site remediation firm, name and certification number of the onsite supervisor and onsite workers that will be performing remediation services on the residually contaminated portion of the real property;
 - b. Copies of the current certification of the onsite supervisor and onsite workers that will be performing remediation services on the residually contaminated portion of the real property;
 - c. Photographs or drawings, and a written description of the residually contaminated portion of the real property that depicts the location and type of any residual contamination;
