

# MAGNET®

## Summer Webinar Series

## UPGRADE YOUR WORKFLOW

Plug in to the latest capabilities that will keep your jobs running fast and efficient. All summer long our experts are holding weekly MAGNET 5 webinars introducing and teaching brand new field and office workflows.

### Upgrade to MAGNET 5

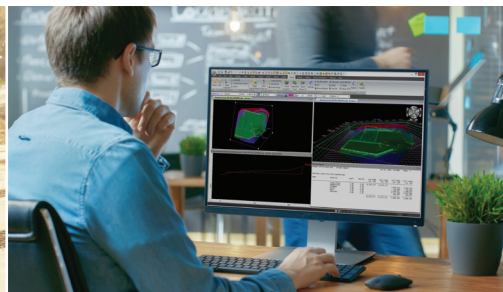

Packed with new features, this release takes Field, Office and Enterprise to the next level. MAGNET is positioning software that puts you in control.

Upgrade today for:

### Field

Survey and stake directly from the map plus advanced file cleanup and filtering in the field.

### Office

Faster machine control file preparation plus construction planning and oversight capability.

### Enterprise

Integrated Autodesk and Bentley cloud connection plus unlimited project file storage.
