

Shay Farrell Writes:

"MHFP "Crew"! It certainly has been too long. Life is good, instructing primary students in the T6 in Texas. I have a healthy 1 year old baby boy, and my wife is doing well. We're very blessed.

Hoping to return to Denver in Fall 2029 and even higher hopes to fly for United starting in June 2028 when I leave active service. Also looking to stay in the reserves. I just selected for Major and will promote around August.

I'm sorry about Captain Searuggs, he was such an incredible man. I'm glad my mom was able to attend the service and see everyone. You folks have been such a big part of my life and hers!

You can expect me to help out with the program as soon as we move back. If I fly into Centennial Airport, I'll be sure to let you know!

I also wanted to take a minute to update you on these very important things in my life. An Air Force Major I'm working with was wearing a red tails shirt out in town and it reminded me where I came from, and of course I took the opportunity to tell him about the MHFP .

I hope all the crew are doing well. God Bless!

Shay"
