

Have you been wondering what assistance is being provided during the COVID-19 pandemic? As you can imagine, the need is greater than what our conference alone can meet. However, our Vincentians have strengthened partnerships with multiple organizations in our community to work together to help neighbors receive the resources they need. In addition to providing financial assistance ourselves or connecting neighbors with other organizations who can generously offer support, we are also helping neighbors apply for government aid including the King County Eviction Prevention Rental Assistance Program (EPRAP), Seattle Emergency Rental Assistance Program (SERAP), and the Community Development Block Grant (CDBG). We are able to use our financial resources wisely by directing neighbors to other funding sources when they are eligible and redirecting us to support those who may not qualify for some government funding, such as neighbors living in parts of White Center that are considered unincorporated King County or those who are undocumented.
