

## *2021 OLG Auction: Will you be our anchor?*

*Feb 22- March 6*

Anchor: to connect (**something**) to a solid base: to hold (**something**) firmly in place.

This past year has been a season for us to really find our anchor. An anchor not only holds a vessel in place in a storm, but also keeps it from drifting in the calm. Our theme this is perfect for this season.

OLG is a family. Our anchor to our community and faith keeps us from drifting and holds us steady in the storms. We can certainly say we had some storms of late.

Our staff, parents, and community have come together in a big way to put together an amazing show of strength for this event. The community partners that said, "yes we want to donate because you have always supported us" have moved us to tears. We didn't ask this year. We just wanted to invest in companies to help them in their storm. They showed up anyway. Anchored together in community.

We have reached out to businesses to support and encourage. So even if you are not bidding on an item - please share or send them a note of encouragement. We want them to know they matter to us.

And finally...we ask...will you help us continue to be the anchor for our families past, current, and future? We know it is big. We know that for some just your prayers are your giving - we see you! You can reach out and share about this event all over social media, your email list, your conversations. Let's show up big. Let's work together to be that anchor and continue to steady OLG for the future. You are seen. You matter. You are our anchor.

Thank you!
