

Join the SafeCity Connect Camera Network

Through the SafeCity Connect Camera Network, we address public safety needs and help reduce crime through collaboration. The camera program is an important, innovative tool and a component of a broader public safety strategy.

In addition to the security cameras acting as a visible crime deterrent, the requested evidentiary footage provides an extraordinary tool in assisting businesses, community members, and public safety officials in the investigation of criminal activity if and when an incident occurs.

Why Join SafeCity — Protect your people, property and assets while enhancing public safety. Each participant contributes to a greater area coverage and overall effectiveness of the program.

Best Eyewitness — forensic-grade, high-definition video and a streamlined video retrieval process act as a force-multiplier in combating crime and promoting accountability.

Power of the Network — street-level, wide-area video network coverage provides the situational awareness necessary to achieve a greater understanding of the sequence of events, expediting investigations and saving valuable time and resources in the process.

Guiding Principles

COMMUNITY-FOCUSED

Locally-governed and focused model that empowers stakeholders with tools and data to have positive and lasting impact in your community.

COLLABORATIVE

Facilitating collaboration between private and public sectors to build trust and maximize impact. Supporting safety, operational and economic goals.

POLICY-DRIVEN

Proven policies and procedures guiding all aspects of program administration including data retention, data access and privacy protections.

TECHNOLOGY

HD Cameras	High-definition, day/night vandal-proof IP cameras.
Recording	30-day high-definition video storage.
Software	Easy-to-use, capable of fast retrieval of video evidence.
Remote Access	Secure remote access via mobile, browser and PC-based app.

SERVICES

Design	Professional design based on CSI best practices.
Implementation	Professional design, installation and support.
Technical Support	24/7 professional system health monitoring.
SafeCity Connect	Video retrieval service for request processing.

TERMS

Subscription	Monthly subscription plan including all equipment, cloud storage, tech support and SafeCity Connect.
Purchase	Outright purchase is available with supplemental support plan.
Participant Responsibilities	Electricity, Internet connection, routine camera maintenance and cleaning.
