Exclusive Carlson Surveyor2 Trade-In Special

MAYSVILLE, Kentucky (December 12, 2016)—In addition to Carlson's annual **End-of-Year Specials** on popular software and hardware, this year Carlson is offering an exclusive year-end Carlson Surveyor2 Trade-In Special.

Now until December 31, 2016, trade in your old data collector for a \$900 credit toward purchasing a new [Carlson Surveyor2](#) with [Carlson SurvCE](#)*. Carlson is offering four configurations of the Surveyor2 package including GEO, CELL and GEO/CELL models, which when purchased through the Trade-In Special are offered at substantial savings. All models of the Carlson Surveyor2 are regularly listed between \$3,650 and \$4,700.

As an added bonus, existing SurvCE users receive a free upgrade on all owned SurvCE modules on the unit with participation in this Trade-In Special.

About the products

Carlson Surveyor2

The Carlson Surveyor 2 is even more rugged than its popular predecessor — IP68 water & dustproof; shock resistant. Still just 2 pounds and the QWERTY keyboard speeds data entry. Comes with a larger, brighter display screen with a higher resolution, easier-to-read color display with scratch-resistant glass. [More info...](#)

Carlson SurvCE

Carlson SurvCE is a complete data collection system for Real Time (RTK) GPS and Total Stations with in-field coordinate geometry. It supports the widest range of popular and new release RTK GPS and conventional/ robotic total stations. SurvCE is available in more than two dozen languages and like all Carlson products, enjoy excellent, free (and prompt) technical support. [More info...](#)

To participate in the Surveyor2 Trade-In Special contact your [Carlson Sales Representative](#) or [Certified Dealer](#) with your current collector's brand, model and serial number.

Carlson Software develops technically advanced software and integrated hardware providing full project lifecycle solutions to the land development and mining professional. The industries served include land surveying, civil engineering, construction/machine control, mining, accident/crime reconstruction, and agriculture.

*All Surveyor2 collectors come with either SurvCE TS or GPS only. Add RTS and other SurvCE modules for the regular price.
