BETTER WAYS TO COPE VIRTUAL FOUNDATIONAL SERIES TRAINING

The Foundational Training Series will offer new or current employees as well as community members the opportunity to participate in the below listed trainings:

PREVENTION 101 2 DAY TRAINING AUGUST 17 AND 30 2022 AT 1PM TO 3PM

The Prevention Basics training provides an overview of the key concepts in substance use and misuse prevention. Participants will be introduced to concepts of the public health approach to prevention, the continuum of care and the role of coalitions and providers in community-based prevention efforts. These concepts will be referenced as the participants are introduced to the Strategic Prevention Framework (SPF).

ENVIRONMENTAL STRATEGIES "GOING TO C.A.M. P." TRAINING NOVEMBER 9, 2022 AT 1PM TO 3PM

Participants will learn to differentiate between individualized and shared environments, while describing how the benefits of using environmental prevention strategies relate to different environmental approaches. Explain how norms, availability, and regulations are connected.

STRATEGIC PREVENTION FRAMEWORK OVERVIEW TRAINING SEPTEMBER 21, 2022 AT 1PM TO 3PM

The Strategic Prevention Framework Identify the elements of SAMHSA's Strategic Prevention Framework (SPF), this will include the five critical processes and the two overarching areas. Participants will be provided an overview of each of these areas as well as the history of SPF.

BUILDING AND MANAGING COMMUNITY COLLABORATIONS AND PARTNERSHIPS DECEMBER 14, 2022 AT 1PM TO 3PM

This Training session will feature the fundamental concepts of building community collaboration and profile elements of successful partnerships. Participants will learn concepts of quality partnership practice through a problem-based learning structure. This structure will allow participants to collaborate with colleagues, highlight the importance of partnerships and promote best practices for developing and maintaining collaborations.

IDENTIFYING AND IMPLEMENTING EVIDENCE BASED INTERVENTIONS TRAINING OCTOBER 12 2022 AT 1PM TO 3PM

During this training participants will be provided an overview of the steps to identifying and implementing the most appropriate evidence-based interventions and programs for their target population. Participants will review the definition and guidance of evidence-based programs, practices, and policies.
