Environmental Studies
UNIVERSITY OF WISCONSIN-MADISON

Salt Sustainability on the UW-Madison Campus

Wednesday, December 4, 2019 | 6 - 7:30 p.m.

Lake Mendota Room, DeJope Residence Hall | 640 Elm Drive Madison, WI 53706

This free presentation will expand the conversation surrounding salt use and its effect on Madison-area water resources. The 2020 Nelson Institute Water Resources Management Cohort will present findings from their study on the UW-Madison campus policies and practices of salt use.

Opportunities for sustainable salt use on campus will be shared along with recommendations aimed at university-wide salt reduction. A question and answer session will follow the lecture.

Refreshments will be provided

PRESENTED IN PARTNERSHIP WITH:

Madison Metropolitan
Sewerage District
