

## *Message from the Executive Director*

The first half of the year is completed, but we have 6 more months to make an impact locally, regionally, and nationally on the adoption of alternative fuels, climate solutions, clean energy and transportation jobs, and environmental equity and justice.

Over the next few months, we will focus on helping members and stakeholders secure public and private funding for projects and initiatives. We will host the GWRCCC Conference, Annual Meeting and Stakeholder Luncheon at the National Press Club on

October 20<sup>th</sup>. GWRCCC will continue providing visionary leadership by adding our voice to key policy and industry related matters and disseminating educational resources to grow our movement for a cleaner and more environmentally sustainable America.

Lastly, thank you to the Parts Authority, EVHybridNoire, AutoFlex Fleet, and K Neal Truck and Bus Center for the sponsorship of the Annual GWRCCC Golf Tournament Fundraiser which was held in June.

Sincerely,

*Antoine M. Thompson*

Antoine M. Thompson  
Executive Director
