

# Safely Get The Care You Need

The emergency room is ready  
to provide lifesaving treatment

**Experiencing signs of a stroke or heart attack?  
Don't delay - Call 9-1-1 immediately!**

## Your Health is Essential

Don't wait to seek care and risk your health. The emergency room is prepared to keep you safe from COVID-19 during your visit.

- Rigorous cleaning and disinfecting procedures
- Robotic ultraviolet light disinfection
- Face masks for everyone
- Increased distance between patients
- Some family members allowed to accompany patients, but all are screened

Call 9-1-1 if you are experiencing symptoms of a stroke or heart attack.

### Signs of a stroke

- **Balance** - does the person have a sudden loss of balance?
- **Eyes** - has the person lost vision in one or both eyes?
- **Face** - does the person's face look uneven?
- **Arms** - is one arm or leg hanging down or weak?
- **Speech** - does the person have slurred speech, trouble speaking, or seem confused?
- **Time** - call 9-1-1 now!

### Signs of heart attack

- Pain or discomfort in chest
- Lightheadedness, nausea, or vomiting
- Jaw, neck, or back pain
- Discomfort or pain in arm or shoulder
- Shortness of breath
