

## Meet Cami and Cupcake

Cami and Cupcake are owned and loved by Hope Key and her husband.

Both girls were adopted as pups from a Greyhound Rescue organization in our area called Star City Greyhounds.

Cami had a stroke as she was being born (the last in a large litter and she didn't get enough oxygen as she was being born) so she's our special, quirky girl. She immediately stole my heart because of the work we do in EI.

Cupcake was a runt so she never raced either. She was a tiny pup and stole my husband's heart immediately. Actual pup sized greyhounds are super rare for adoptions because they are usually full grown by the time they make it to a rescue. They are our spoiled couch potatoes who love treats, snuggles, and always watch me while I work!

Hope works for Easterseals and we contract with ITC of the Roanoke Valley. I'm a Board Certified-Music Therapist and I provide DS, group DS within a music therapy group, and SC services through Easterseals.
