

## Do you have a child newly diagnosed with a developmental delay?

The Center for Family Involvement is doing a study to learn more about how cultural brokers can help families of children with developmental delays to better address future challenges. Cultural brokers are racially and ethnically diverse parents who provide support to other parents of children with developmental delays or disabilities. Would you consider being a part of this research?

### Participants will:

1. Receive parent to parent support from a cultural broker through phone calls over several weeks
2. Have a survey conversation (about 40 min) at the beginning of the first week
3. Have another survey conversation (about 40 min) in the final week of support.
4. Receive \$100 in total (\$25 for the first survey, another \$75 for the second survey).
