

Goodbye to ITOTS

Farewell ITOTS,
my old friend!!*

* I have been with ITOTS from the beginning. That is a picture of me above when ITOTS started. It is not well known, but I am the one who invented ITOTS. I just don't like to gloat. I bet most don't even know what ITOTS stands for. I do, because I am the one that came up with the words that made the acronym that we know as "ITOTS".

This week has been especially hard for me, having to say goodbye. However, I think we will be in good hands with LACK-IT..oops, I mean TRAC-It.

Farwell Itots!! Rest in peace, my friend.

In Service,
David mills (aka Mr. Itots)
