

From the First Selectman, Mary Bylone:

May is here and as the number of citizens vaccinated grows, we see our restrictions decrease. On May 1 Governor Lamont lifted many restrictions and there will be more lifted on May 19. The CDC has said that people who are vaccinated don't have to wear their masks if they are outside so that means we can get sun on our face as we watch games at the RecPlex.

This May we are also happy to celebrate the reopening of the Senior Center on May 3. They are still offering many programs through Zoom our seniors can attend when they are comfortable. The Senior Center Building Committee continues to work on their project and through their Public Information campaign they have a page on the Town website with history, video and frequently asked questions. To learn more about this great project for our town visit <https://www.colchesterct.gov/senior-center-building-project>

We have seen new businesses open here in town and look forward to more ribbon cuttings to highlight all the wonderful things they offer. Please follow my Facebook page <https://www.facebook.com/firstselectmansoffice> for updates. This newsletter and all its offerings are everyday examples of the "Best of Colchester."
