

## Colchester Giving Garden

The Giving Garden is in full swing now with many vegetables being grown, harvested and donated to our town food bank. We have already surpassed 300 lbs. of fresh produce donated right here in town to those in need.

We are always excited to welcome new volunteers to the garden and so why not try something new this summer and help out? We are in the garden on Tuesday evenings at five o'clock and you do not need to have any gardening experience.

All ages and abilities are welcome. We only ask that you wear a closed toe shoe to work ...no sandals or flip flops.

The garden is located behind the "old senior center" at 95 Norwich Ave. Hope to see you there!! For more questions, please write to us at
