

## Colchester Giving Garden

The giving garden has wrapped up the 2021 season and the garden is resting for the winter months! We will start up next year's season in April of the new year. This past year we grew and donated fresh produce for the food insecure in our community each week. WE donated over 1,250 lbs. of fresh food for the season. If you would like to support the garden in a unique way you may donate in memory of a loved one or perhaps give a special person a special gift by donating in their name. We will send a personal note to give as a gift if requested. For more information on donating to the garden please write to our email ...[colchestergivinggarden@gmail.com](mailto:colchestergivinggarden@gmail.com). Thank you.
