# Tournament Starting Options

## **Single Tee**

This option is ideal for small groups (16-40 players). Each foursome will tee off at the first (1st) tee in sequential order. After the first foursome (Group #1) tees off and has completed the second shot, the second foursome (Group #2) tees off next and the third foursome (Group #3) is considered "on deck". The tee times continue until all groups are in play.

## **Shotgun**

A shotgun start sends each group in the tournament to a specific, unique starting hole or position. Then, when the shotgun start happens -- named for the idea of firing a shotgun in the air as the indication all players should start their round at the same time -- each group tees off from their specified hole. From there, each group plays the nine- or 18-hole round going around through the course in ordinal order from where they begin the round. For example, a group which tees off on the 11th hole would then play holes 12-18 before riding around to the first tee and then playing holes 1-10 to round out the day. The point of a shotgun start is to allow for a large field of players to get through a round, keeping them engaged and moving. A shotgun start is a great way to condense the time it takes to play a tournament.

# Special Events and Contests

## **Closest to the Pin (KP)**

Prize awarded for the shot that comes to rest closest to the pin; normally played on the par 3's.

## **Closest to the Pin on 2<sup>nd</sup> Shot**

Prize awarded for the shot that comes to rest closest to the pin; can be played on any hole on the golf course except the par 3's

## **Longest Drive (LD)**

Prize awarded for the longest drive off the tee-box, in the fairway; normally played on the course's longest length par 5.

## **Longest Putt**

Prize awarded to person making the longest putt on a specific green. Recommend this contest is played on the course's putting green at the clubhouse prior to the start of the tournament to promote a fun and competitive atmosphere yet providing a reasonably rapid pace of play.

## **Straightest Drive**

A white line is placed down the middle of the fairway. The drive off the tee-box that comes to rest closest to the line is the winner; normally played on the course's last par 5 but not necessarily the same par 5 used for the longest and shortest drive contests.

## **Tiger Drive**

During tournament play the host charity, host company, etc. may charge golfers a small fee (usually \$20) to hit from where Tiger Woods would hit his drive, instead of teeing off from the tee box like normal. The golfers would only be charged one stroke, giving them a drive that most people can only dream of.
