expenses and to provide  
flexibility regarding possible  
itinerary changes**

**\$12 - \$15 / DAY**

**SPENDING MONEY**

**lunches, three dinners, optional  
excursions, souvenirs, and gelato!**

# CLASSICAL ROME AND ITS RE-BIRTH

This educational program aims to spark students' sense of wonder about a place near and dear to the classical tradition: Italy. Like the amazing field study in 2016, this tour has two primary objectives: first, to bring students into direct contact with the best art, architecture, and historical locations of Western culture; second, to study a broad swath of Western Civilization as it affected a specific locale. Through giving special attention to one medium-sized city, students have a unique vantage point from which to see the deep waves of history as they have rolled across Europe. The 2018 field study will expose students to the best of classical Roman civilization in Rome, the Byzantine influence in Ravenna, the Middle Ages in cities like Assisi, Pisa, Lucca, and Siena, and the Renaissance as it flowered in Rome, Venice, and Florence. With a full week in Florence, students will experience firsthand the greatest works by the most important Renaissance artists, architects, and poets. We will climb to the top of Brunelleschi's dome, stroll all the way around Michelangelo's David, walk where Dante walked, and contemplate works by Raphael, Ghiberti, and many more.
