

# LWML Mites Mission Of The Month November

Mites Mission of the Month (NID District):

***Equipping the Church to Reach People with Disabilities, Voice of Care:*** Voice of Care looks to train respite companion volunteer trainers in each of the Northern Illinois District's four regions. In partnership with REST ([restprogram.org](http://restprogram.org)), Voice of Care will customize material to fit the specific needs of Lutheran churches providing Christ-centered respite care. As respite care need increases and funding decreases, Voice of Care is raising a corps of trained volunteer respite companions in the Northern Illinois District. Through building relationships, Voice of Care-trained respite companion volunteers will seek to nurture care recipients and caregivers in their Christian walk.

This grant will provide curriculum resources and personnel training to continue this outreach.

Contribute Mites through your weekly Peace offering envelope.
