

## **Brian McKenna, FACHE**

Brian is the Director of Specialties, Ancillaries & Real Estate for Compass Medical, P.C., an affiliate of the Steward Health Care System. He oversees the Cardiovascular and Behavioral Health service lines, a high complexity Laboratory processing 1.1 million tests annually, four Radiology Centers providing 60,000 studies, twelve specialty providers and more than 200,000 sq. ft. of medical space in eight locations throughout Southeastern Massachusetts. Brian is a Board Certified Fellow of the American College of Healthcare Executives (FACHE) having been a member since 1991. Before joining Compass Medical he was the Regional Director for Business Development, Hospital & Physician Relations within Kindred Healthcare's Hospital Division. At Kindred he was responsible for strategic initiatives as well as hospital and physician relations for seven hospitals throughout Massachusetts. Brian has extensive experience in business development, strategic initiatives and operations management of healthcare organizations. He has spent almost half of his career in hospital administration. Brian holds a B.S. in Healthcare Administration from Stonehill College and an M.S. in Health Services Management from Lesley University.

### **Fun Fact**

Brian has been on the faculty at Stonehill College since 1998 teaching two courses each semester in the Healthcare Administration Program which enjoys full membership in the Association of University Programs in Health Administration. He also serves as the Department's Faculty Advisor to ACHE's Higher Education Network.

### **Testimonial**

I became involved with ACHE back in 1991 to attend high quality educational sessions within the Chapter as well as to have access to up-to-date information on a myriad of healthcare issues. I chose to become Board Certified to challenge myself and demonstrate my commitment to the field of healthcare management. Being a member of this world-class organization has provided me with access to great resources and wonderful opportunities to network with colleagues and peers within the industry, both locally and nationally. I have thoroughly enjoyed my relationship with ACHE these past 27 years as it's provided me with many of the resources needed in today's fast-paced and ever changing field of healthcare. I encourage all of my students to become Student Members in ACHE to begin a lifelong relationship with the premier organization for healthcare management.
