## PRESIDENT'S MESSAGE

FEBRUARY 2019

### FIGHTING FOR AFFORDABLE HEALTHCARE/WHY YOU ARE MAKING LESS MONEY

When Governor Chris Christie signed PL 2011 Chapter 78 into law on June 28, 2011, he set a chain of events into effect that would ultimately reduce the take-home pay of public employees.

Chapter 78 mandated that employees pay a percentage of their health insurance premium. Depending on plan choices, level of coverage, and salary, the employee contribution ranges from 3% of the premium to 35% of the premium and is never less than 1.5% of the employee's base salary. When an employee's salary increases, the contribution may jump another to another level of premium sharing, resulting in the pay raise being reduced, or, even worse, decreased. Further, whenever there is a premium increase, a member's contribution subsequently increases further reducing take-home pay.

As a result, NJEA members are seeing significant decreases in take-home pay and that's having devastating consequences on them and their families. Some are unable to meet their basic financial obligations like mortgage, rent and car payments. Others are taking on added debt like short-term loans and increased use of credit cards. While the overall economy is improving, our members are doing worse. Their salaries are not keeping up with the escalating costs associated with Chapter 78.

Chapter 78 has impact at the bargaining table as it affects salaries, benefits and quality of health care.

NJEA is in the forefront of leading the way on cost-effective healthcare reform. NJEA has proposed 3 reforms to save the state more than \$830 million per year. We need every member to contact legislators to get these reforms passed. Politics does indeed affect our profession.

I urge you to take an ACTIVE role by tweeting, emailing, and calling your elected representatives.

### EOEA ACTION COMMITTEE:

Soon you will be asked to volunteer to serve on the Action Committee as we attempt to move forward in the current contract negotiations. Please answer the call as none of us is as strong as ALL of us. GET INVOLVED!!!!!!

## EOEA HEALTH, SAFETY AND SECURITY COMMITTEE (HSSC)

By Keith Hinton II, Chairperson

The HSSC will meet on February 8, 2019, with a follow up walkthrough of STEM Academy. There were new issues that were observed. Most issues seen in January however were either fixed or put in school dudes. Just a reminder about school dudes work. You must notify your building Principal. He/she notifies the head custodian, and then an assessment is done to see what the next steps are. Also, if the work is not completed or you are notified within a few days, please e mail the HSSC and add it to your TALC. It is important to follow these guidelines in order to have work done RIGHT!

Some other issues that were discussed already and updates are:

### Carver Update

Maintenance has contacted the roofing contractor again. The work done still has issues in some new areas, according to the maintenance department.

### School Dudes Update

It will be reported to the committee every month about the work that is being done.

### Costley Update

They have a long list of problems that have not been addressed. Ms. Greaddington will give the list to Mr. Mitchell. Mr. Mitchell says they have already done a lot of work there.

### EOCHS Update

Ms. Wigfall told Mr. Hinton that all requests were completed. This is not believed to be true when looking at the evidence around the building.

### Tyson Elementary

Maintenance was in the extreme temperature rooms to assess next steps. It is in school dudes.

The next meeting of the HSSC will be on March 14, 2019 at 9:00 AM at the EOEA Office, followed by a walk-through of Dionne Warwick.

**GOVERNMENT RELATIONS**

By Jacqueline White, Chairperson

**Greetings Members,**

Dr. Martin Luther King, Jr. tells us that ‘the moral arc of the universe bends towards justice.’ Throughout history, we have seen that moral arc bends because people bend it.

The Essex County Legislative Dinner is an excellent opportunity to learn about current legislative issues and how you can make a difference. It's also a great opportunity to meet your district's lawmakers and share your concerns. When you make your concerns a part of their agendas, you bend that moral arc even more.

**FAST**

By Carla Hinds, Chairperson

Greetings all! It is a pleasure for me to make this report on the work of the FAST Committee. I will explain the process for submitting projects for the FAST Grant and announce the honorees for Keepers of the Dream.

Overall, the best FAST events are those where parents converse with our members about what they want to see in their schools. FAST team members work with the parents to make things happen. We cannot organize parents around our professional issues, but we can look for places where our issues and parents' issues intersect and build coalitions that are grounded in action around those things. We can also provide opportunities for parents, stakeholders and our members to join together in regards to areas of common interests. (i.e. school safety, literacy, school visits, community advocacy). Some of the types of events that we can assist you in sponsoring are: Partnerships, discussions, and programs focusing on family involvement. Support for legislation that would allow parents to take time away from work, without loss of pay, to address children's needs at school.

Additionally workshops can be:

- Family involvement workshops through which parents and caregivers learn more about helping children succeed in school. These events include activities for children, so that families can attend them together.
- Visits by school employees to participating places of worship and other community meeting places to invite and encourage parents and caregivers to participate in teacher conferences and school activities.

Start thinking now about events that will be beneficial to our schools, parents, stakeholders and students in SY 2019-2020. In June, we will come together to formulate a grant for the next school year. This process is easy to navigate when your events are on the initial grant.
