

The Positive Side of Working from Home!

Upgrade Your Professional Credential with a Graduate Degree in Information Quality

The pandemic has brought many changes to our personal and professional lives. Perhaps the most surprising is the realization that many of us can work from home as effectively as working in the office. Well, the same can be said for graduate studies in information quality as well. [The University of Arkansas at Little Rock](#) is a leader in providing high-quality, online graduate studies in information quality and information science. The UA Little Rock master's programs in Information Quality (IQ) and Information Systems (IS) were ranked 19th in a national survey conducted by the [US News and World Report](#).

Not ready for a master's degree? Start with a 12-hour graduate IQ certificate program!

The great things about these certificates are that they do not require Graduate Record Examination (GRE) scores for admission, the four courses required to complete each certificate will count toward the Master of Science in Information Quality (MSIQ). They are inexpensive, online, and only US\$383 per credit hour.

And wait, that's not all! If you order in the next 24 hours (just kidding!). There actually is another bonus. As part of the program, Professor Richard Wang himself will be offering one of the courses, the new [CDO Fundamentals Course](#). It will count as one of the four courses needed to earn the MSIQ Graduate Certificate at the University of Arkansas at Little Rock. This is the first time a CDO course has been offered as part of a University graduate degree curriculum. Professor Wang is teaching the course in the current spring semester and will offer this course again in Fall 2021 semester.

- And wait, that's not all (No Kidding)! [MIT CDOIQ](#) will offer Complimentary registration to the Symposium (valued at \$600) to those who are admitted to the Graduate Certificate Program.
- As well, Scholarships and Tuition Waiver Options may be available to you upon completing the GC program for you to continue to complete the MSIQ Master's Degree Program.

Ready to apply? Go to [Online Information Quality Graduate Certificate Program](#). Want more information, email Professor John R. Talburt (jrtalbert@ualr.edu), the Program Director, or visit <https://ualr.edu/informationquality/>.
