

From the Desk of EGSA Membership Committee Chair, David Oshefsky

Good Day Friends!

We are excited to see all of you in New Mexico next month.

The Membership Committee is continuing our work on refining the membership mentor program. During the Fall Conference, we received positive feedback for the efforts of the committee. I would like to thank all of the committee members for their participation.

Please reach out if you would like participate! It is very important to our membership team to welcome new members, first timers, and especially new member companies.

Another important goal of our Committee is to make sure new member companies fully understand all of the benefits received from their EGSA membership.

As in the Fall, we are looking for additional mentors, if you love this organization and want to help us in these efforts, you are welcome to attend.

New perspectives and ideas are always welcome!

David Oshefsky, The Newell Company, Inc.
