

SA Associates is principal-owned engineering consulting firm with offices in Los Angeles and Orange Counties. We provide complete civil engineering services for municipalities, public and private water agencies, sanitary districts, and flood control districts. Our services cover a broad spectrum of engineering from investigation and feasibility reports to design, construction administration, and construction observation for public works projects.

We currently have openings for the following positions:

ENGINEER

SA Associates is seeking an Engineer with 5+ years of experience in Public Works Projects including water mains, sewers, storm drains, pump stations, wells, roads, and reservoirs. Candidates should possess the following qualities/skills:

- College graduate with a B.S. degree or higher
- California State credentials: Engineer-in-Training or Registered Civil Engineer preferred, but not required
- Ability to work independently
- Good verbal communication and writing skills and command of the English language
- Knowledge of AutoCAD – ability to create a layout of a plan/drawing.
- Use of MS Word, Excel, and Outlook E-Mail. Some knowledge of PowerPoint helpful.
- Ability to interact with clients and work well with others
- Creation of reports, proposals, presentations, specifications, etc.
- Familiarity with industry Standards such as Greenbook, Caltrans, AWWA, etc.
- Preparation of permit applications for various public agencies

ENGINEER-IN-TRAINING

- College graduate with a B.S. degree or higher.
- Assist engineers on various public works projects including water, sewer, wells, storm drain, and streets.
- Assist with various types of research and presentations.
- May involve some interaction with clients.
- Good writing and verbal skills. Command of the English language.
- Strong professional work ethic and interpersonal skills.
- May involve basics of proposal writing.
- Experience with AutoCAD – ability to create a layout of a plan/drawing.
- Proficient with MS Word and Excel. Some knowledge of PowerPoint helpful.
- Transportation helpful to run errands, do drop-offs and pickups.

CAD DESIGNER

SA Associates is seeking an AutoCAD Designer with a minimum of 5+ years' experience utilizing CAD or Civil 3D in a professional environment, to provide drafting services for design projects including streets, water, sewer, storm drains, wells, etc. Candidates shall have strong software knowledge to be able to create a base map by drawing in existing utilities overlayed on the topographic survey, then capable to prepare the design plans, profiles, and details in AutoCAD or Civil 3D under the supervision of an experienced engineer.

CONSTRUCTION INSPECTORS

We are seeking Construction Inspectors with 5+ years of experience in the inspection of public works projects including roads, water mains, sewers, storm drains, pump stations, and traffic.

Must have familiarity with the "Standard Specifications for Public Works Construction" (Greenbook), Caltrans Standard Specifications, Cal/OSHA Construction Safety Orders, WATCH Manual, and California MUTCD. In addition, inspectors should have experience in preparing and processing change orders, statements of working days, reviewing progress payment, conducting labor interviews, and preparing as-built plans. Certifications helpful.

Projects located in Los Angeles, Orange, Riverside, and San Bernardino Counties.

Transportation required. Positions may be full-time or part-time.
