2024 FTCA DEEMING APPLICATION CLINIC

Sponsored by HRSA

**March 6th,
20th, 27th
& April 3rd**

HRSA is excited to announce the Deeming Application Clinic.

During the clinic, you will receive comprehensive instructions on how to complete each section of the application and learn directly from experts in the risk management field. We recommend all health centers require or encourage their individual staff members and providers to register and attend the sessions of the clinic that are relevant to their work. Sessions are tentatively planned to take place from 1:00 PM to 5:00 PM EST on March 6th, March 20th, March 27th, and April 3rd. A finalized schedule with exact times will be provided when registration opens.

AREAS OF FOCUS

- **Application Requirements Deep Dive**
- **Tracking Procedures**
- **Annual Risk Management Training Plan Development**
- **Practical Application of FTCA Tools**
- **Board Reporting Excellence**
- **Interactive Labs for Practical Skills**

***Training Sessions:**

HIPAA Requirement- Cybersecurity Vigilance:

Enhance your cybersecurity vigilance with a focused training session, delving into critical aspects and strategies to navigate health center data breaches effectively.

Areas of High-Risk Requirement-Sexual Misconduct Policies Proficiency: Exploration of essential components and consideration for effective Sexual Misconduct Policies.

***NOTE:** The training sessions won't be accepted as proof of completion of the required training for applications submitted for 2024. For those, you must provide evidence that the required trainings were completed in calendar year 2023. However, the trainings described below are suitable for meeting the required training requirements for FTCA applications to be submitted in 2025.

Each attendee must register individually to receive a certificate of completion.
