Ana Tomboulian: A visionary leader in the AI industry, Ana Tomboulian is no stranger to innovation and transformation. As a 2nd time founder, she has dedicated her career to identifying and seizing missed opportunities for businesses, translating into millions in reclaimed revenue. With an impressive thirteen years of hands-on experience in software development for production environments, Ana's expertise extends to AI, Python, Django Rest Framework, Vue.js, and CSS3. Beyond her professional pursuits, Ana's passion for mentorship and teaching reflects her philosophy of "learning by doing." A student of life, her blend of technical prowess, leadership, and dedication to real-world problem-solving makes her an influential figure in the tech industry.
