Subject: Thanks, from El Paso

As many of you may know, we have sent staff to support our sister hospitals at The Hospitals of Providence (THOP) in El Paso. Our team there is making a difference as El Paso deals with a devastating surge of COVID-19 in the community. I want to pass along the heartfelt thanks shared by Monica C. Vargas-Mahar, CEO of The Hospitals of Providence East Campus.

“We are so fortunate to have fellow **Tenet family team members** here with us as we respond to the surge in **COVID-19** cases. I personally got to meet four of our **adopted Team East** team members and was so happy to hear that they’ve felt completely welcomed by our team (*that’s Team East style*) and impressed with how we’ve adapted to this new care environment. This team of nine came **from various hospitals in the San Antonio area**. They’ve responded to other sister hospitals like to the Detroit market. A huge heartfelt thank you **Stefani Bohmfalk, RN** (Baptist Medical Center), **Kaycee Youngblood, RN** (Resolute Health Hospital), **David Aguero, LVN** (Mission Trail Baptist Hospital), **Gabriella De Los Santos, LVN** (Mission Trail Baptist Hospital), **Dirk Davis, RN** (Resolute Health Hospital), **Felicia Rivera, LVN** (Mission Trail Baptist Hospital), **Shivani Makan, RN** (Mission Trail Baptist Hospital), **Melanie Bishop, RN** (Resolute Health Hospital) and **Gabriela Ramos, RN** (Mission Trail Baptist Hospital).

Thank you for your willingness to support Team East in this moment! We are so blessed to have family in Texas... you are now officially adopted as part of the Team East family. You’ve sent us your brightest stars and they are shining bright!”
