

Introduction to Glass Mosaics

No Experience Required

Learn the basics of glass mosaics

Each student will create an 8"x10" project - a selection of patterns is available.

Students will cut small pieces of glass (tesserae) to fill the pattern areas. You will learn how to nip different shapes to achieve an artistic outcome. We'll discuss basic terminology, how to choose the substrate, how to choose the adhesive, priming the substrate, gluing tesserae and edge treatments. Grouting instructions will be discussed for grouting at home. Please bring zip-lock baggies for left over tesserae.
