OUR COMPANY & SERVICES

Blair, Church & Flynn is a **Native American Owned, nationally recognized, multi-discipline consulting group** delivering critical energy infrastructure solutions safely, efficiently and sustainably.

Since 1958, our talented professionals have been helping clients solve their most challenging projects. By implementing our technical expertise into action, our work continues to improve communities throughout the Western US.

OUR CORE SERVICES:

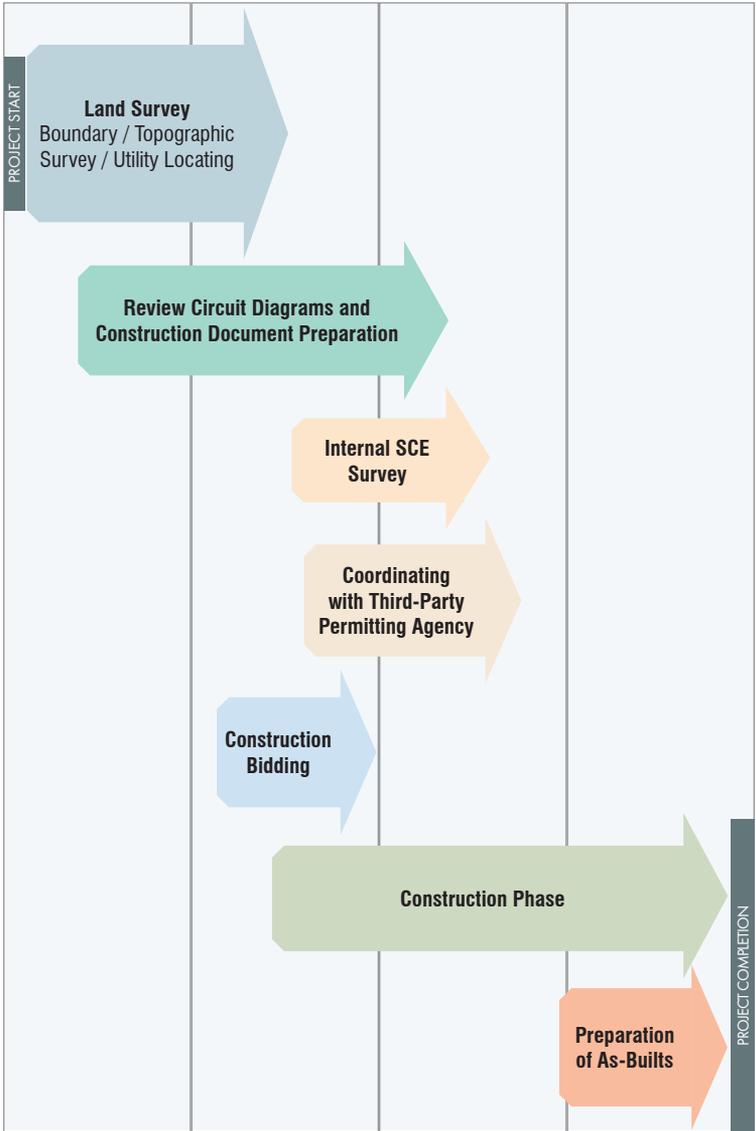

- Civil Engineering
- Electrical Engineering
- Structural Engineering
- Mechanical Engineering
- Environmental
- Architecture
- Land Surveying

RATING

EFFICIENCY THROUGH BUNDLED SERVICES

Blair, Church & Flynn is a full-service, multidisciplinary company. By seamlessly integrating design disciplines, we can efficiently manage projects from start to finish, *saving our clients both time and money.*

PROJECT TIMELINE

OUR EXPERIENCE

Blair, Church & Flynn has the power to deliver. For decades, our firm has focused on designing critical infrastructure for energy companies and utility providers. Together with our clients and partners, we have successfully delivered key initiatives and programs that reshape our communities.

Electric Distribution

New Business, Overhead to Underground Conversions, Pole Replacements, and Overhead Reconductoring.

Wildfire Hardening

System Hardening, Undergrounding, PSPS Micro-Generation Interconnection Sites, and Post-Fire Inspection Services.

Electric Vehicle Infrastructure

Level 1 Charging, Light / Medium / Heavy-Duty Fleet Charging, Large-Scale Transit and Bus Charging, To the Meter (TiM), and Beyond the Meter (BiM) Electrical Infrastructure.

BY THE NUMBERS

WHAT WE'VE ACCOMPLISHED TO DATE:

140+

California High Speed Rail Utility Conflict Electric Relocations

100+

New Business - Primary Services

75+

New Business - Rule 16 New Services

25+

New Business - Subdivision Designs (Gas & Electric)

300+

Pole Compliance - Transmission & Distribution Pole Compliance Jobs

90+

Electric Distribution (Overhead) - Miles of OH Reconstruction for Capacity, Reliability & Wildfire Mitigation Projects

100+

Electric Distribution (Underground) - Miles of Strategic Electric Distribution UG

OUR ELECTRIC DISTRIBUTION JOURNEY

From Undergrounding at the Top of Fitch Mountain to a Regional Stronger Grid

The journey began more than a decade ago with a wildfire hardening program for a California utility, tackling electric distribution rebuild challenges on Fitch Mountain in Middletown, California.

That experience laid the foundation for our involvement in an ambitious effort to underground 10,000 miles of electric lines in Central and Northern California.

But at Blair, Church & Flynn, we thrive on challenges. Our multi-disciplinary engineering team brings expertise in civil, mechanical, and electrical disciplines, with decades of experience supporting California's regulated utilities.

From bridge crossings to heavy civil projects and Preinstalled Interconnection Hubs (PIH), ***we specialize in integrating all aspects of complex electrical infrastructure.*** Whether it's mapping and Subsurface Utility Engineering (SUE), underground utility design, or ensuring overhead system resiliency, we consistently deliver solutions that drive critical infrastructure forward.

OUR RESULTS SPEAK FOR THEMSELVES

\$2M

Saving on programming due to custom, streamlined workflows

\$500K

Savings for a utility client using **Project bundling** for critical Infrastructure improvement

\$4M+

Savings in professional fees by utilizing **creative design solutions**

0.05%

Less than 0.05% change orders for construction documents

OUR CERTIFICATIONS INCLUDE:

- CPUC Supplier Clearinghouse MBE (Native American) VON# 12020053
- National Minority Supplier Development Council MBE (Native American)..... SC03977
