

Blair, Church & Flynn is a nationally recognized, multi-discipline consulting group that has been delivering safe and economical infrastructure solutions **SINCE 1958**. We've successfully delivered thousands of engineering projects involving the design of critical infrastructure throughout the Western US.

Acting as trusted advisors, we help clients solve problems, improve their communities, and responsibly plan for the future. All while adhering to uncompromised standards, emphasizing service, quality, integrity, and good common sense.

OUR WATER INFRASTRUCTURE EXPERIENCE

Water infrastructure has been our core expertise since our founding in 1958 by George Blair, who set out to bring innovative solutions to water resources, delivery systems, and flood control management. For over six decades, we've upheld that vision—successfully serving municipalities, regulated utilities, and water districts across California.

OUR EXPERIENCE BY THE NUMBERS:

500+

Water distribution system designs

300+

Miles of water pipeline ranging from 8" - 60" in diameter

\$136M+

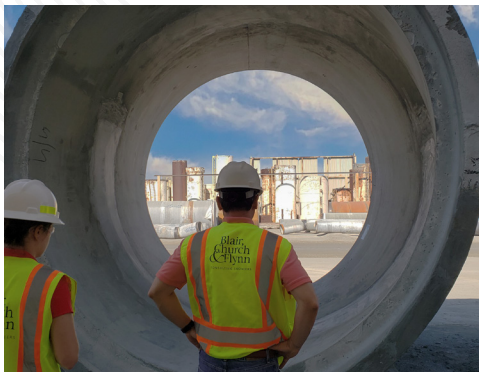

Construction value of pipeline projects in the past three decades

\$4M+

Savings in professional fees by utilizing creative design solutions

OUR CORE SERVICES & WATER INFRASTRUCTURE EXPERTISE

Blair, Church & Flynn understands its responsibility to deliver clients with the highest possible level of service—utilizing the most effective set of tools, techniques, personnel, and resources in order to deliver results that reduce overall project risk rather than contributing to it, and accelerate a project schedule rather than impeding it.

Our Water Infrastructure Expertise:

- Master Planning
- Site Selection Studies
- Well Head Treatment
- Variable Frequency Drive
- Analysis of Treatment Options
- Recharge Facilities
- Storm Water Pollution Prevention Plans (SWPPP)
- Agency Coordination
- Grading & Drainage
- Sewer Infrastructure
- Water Infrastructure
- Storm Drainage Infrastructure
- Cost Estimating
- Water Conservation
- Recycled Water Systems
- Hydraulic Capacity Studies
- Water Mains & Distribution Pipelines
- Water Treatment
- Water Quality
- Pump & Booster Systems
- Storage Tanks & Basins
- Water Control Structures
- Well Design & Testing
- Pipeline Inspection & Evaluation
- Pipeline Rehabilitation
- Large Diameter Pipelines
- Construction Documents
- Technical Specifications
- Bidding & Construction Support
- Traffic Management & Detouring
- PFAS
- Condition Assessments

Our Core Services:

- Civil Engineering
- Electrical Engineering
- Structural Engineering
- Mechanical Engineering
- Land Surveying
- Environmental
- Architecture
- Computer-Aided Drafting Services

CONTACT US!

We are a one-stop shop of multi-discipline expertise for our clients, with most services they need available in-house. Contact us for more information about how we can provide value to your utility client or program.

WE ARE SAFE FROM THE START:

- ISNetworld "A" Grade
- PG&E Golden Shovel Certification
